Memorandum

Date: September 1, 2015
To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners
From: Carlos A. Gimenez
Mayor 
Subject: Historic Preservation Ad Valorem Tax Exemption for
1021 Alhambra Circle, Coral Gables, Florida

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the resolution for the ad valorem tax exemption for the property located at 1021 Alhambra Circle, Coral Gables, Florida, pursuant to the provisions of Florida Statute Sections 196.1997 and 196.1998 and Miami-Dade County Ordinance 16A-18.

Scope

This property is located within Commission District 6, which is represented by Commissioner Rebeca Sosa.

Fiscal Impact/Funding Source

The portions of taxes that will be exempted if this application is granted are estimated at \$1,108 per year, as provided by the Property Appraiser in the attached "Revenue Implications Report."

The approval of this application solely affects the countywide portion of the taxes and only for a period of ten years. Other taxing authorities remain unaffected. Additionally, the applicant is not given a complete exemption from the countywide portion of the property taxes. Rather, during the ten-year abatement period, the County will continue to collect property taxes based on the property's value previous to the renovation. Following the ten-year exemption period, the County will begin to collect taxes on the full value of the property, including the increase in value of the property due to the renovation, as determined by the Property Appraiser.

Track Record/Monitor

The Assistant Director of Planning in the Department of Regulatory and Economic Resources, Mark R. Woerner, will be responsible for implementation. County Historic Preservation staff or the Preservation Officer of the appropriate municipality will conduct periodic reviews of the property to insure that the improvements are maintained for the duration of the tax abatement period.

Background

In 1993, the State legislature approved tax exemptions for historic properties and enabled local governments the option to provide this property tax exemption for eligible historic properties. The exemptions encourage the preservation of historic buildings by offering an economic incentive to those who take on the responsibility of restoring and maintaining a designated historic structure. The exemption is not for the entire assessed value of the property. The tax exemptions are calculated from what the value of the renovations to the historic property were, and only apply to the countywide portion of the property's tax bill. An exemption may also be granted on the municipal portion of the property tax bill if approved by the relevant municipality.

All applicants must meet certain criteria as set forth by the Florida Department of State, Division of Historical Resources, in order for a tax exemption to be allowed, including:

- Certification that the property has been designated historic by the applicable preservation board;
- Certification that the property has received approval for the improvements by the applicable preservation board; and
- A determination that the planned improvements are consistent with the Secretary of the Interior's Standards for Rehabilitation.

Part I of the application must be submitted prior to construction. When the project is completed, the owner/applicant must submit Part II of the application, and a signed covenant. The local preservation officer must also review and authorize the work. The item can then be placed on the County's Historic Preservation Board agenda. The Property Appraiser prepares the Revenue Implications Report when they consider the project substantially complete, and provides this report to the County Historic Preservation office. The tax exemption is calculated using the millage rate for the year in which the project was completed.

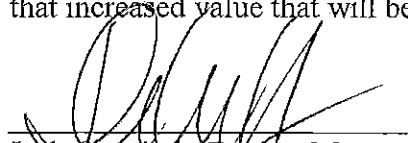

The tax exemption takes effect on January 1 following substantial completion of the improvement and extends for a ten-year period. Failure by the owners to adhere to these standards would result in revocation of the exemption.

The residence located at 1021 Alhambra Circle, in Coral Gables, FL, was constructed in 1929 and is listed as a contributing structure within the "Alhambra Circle Historic District," designated as such by the City of Coral Gables in January 2008.

The main residence exemplifies the Mediterranean Revival architectural style, designed by renowned architectural firm of Steward and Paist. Phineas Paist was the supervising architect for George Merrick's Coral Gables Corporation. Unique architectural features include an octagonal tower, an oriel (or bay) window above the front entry door, stylized arches, a predominant chimney, pecky cypress outriggers or eave supports, and a barrel tile roof.

Many of the original features found throughout the house, including original wood floors, wood doors, wood ceilings, and decorative tiling, were preserved and restored. Features that were not original were removed and replaced with more historically appropriate materials. This included the removal of the non-historic metal gateways, metal doors, and the window and door guardrails and metal bars. Some of the meticulous preservation work included the restoration of original keystone around the entryway, restoration of the pecky cypress exterior elements including eave brackets, restoration of the original chimney structure, and restoration of original exterior wingwalls.

The total amount spent by the property owners on this renovation was \$1,200,429 (*source: Part II Application*). The Property Appraiser's office determined that the change in the property's value, because of those improvements, was an increase of \$230,000. The countywide portion of taxes on that increased value that will be exempted is \$1,108 per year, if this application is approved.
